Task:

Research recent advances in the science and technology in one of the following areas.

1) Light or Sight recent advances.

OR

2) The science of sound recent advances.

Some ideas: How is it now possible to store over 1000 compact discs (CDs) onto something as small as a smart phone, what is the science behind it? Bionic ears? Uses for sound eg. Ultrasound imaging, sonar?

For each topic give examples of how your topic is relevant to everyday life. Make your report suitable for a Year 9 audience. Make sure you understand the meaning of all the words you use in your report. Your
