STANDING
POLICY

Donnybrook District High School

SECONDARY GOOD STANDING POLICY

As part of the Positive Behaviour Management Policy at Donnybrook DHS, the school requires students to remain in Good Standing to participate in extra curricula activities and reward excursions. To attend excursions, students must have their Good Standing in place on the day of the excursion.

These excursions include, but are not limited to: Sporting activities, such as Lightning Carnival, Winter Carnival, and Interschool Sport. Also included are recognition of positive behaviour activities, school events and incursions.

Recording of Negative Behaviour at school

The Good Standing Policy agrees that all students are in possession of their Good Standing until it is lost through the recording of repeated negative behaviours.

At Donnybrook District High School negative behaviours are recorded on our school management system in minor and major behaviours. These behaviours are managed in class using a Circuit Breakers strategy. A Circuit Breaker allows students a ten-to-fifteen-minute break from class to complete a reflection sheet. Upon return to class, students and teachers restore the relationship and class continues.

Circuit Breakers are given for students who breach the following expectations:

- Student will avoid disrupting the learning environment
- Students will interact with staff or classmates in a respectful way.
- Students will complete work to a standard directed by the teacher.
- Students will always follow the direct instructions of a staff members.

Students who breach these expectations are given three opportunities to correct their behaviour.

- First verbal warning is given – The teacher will name the behaviour and give a warning.
- If student does not correct the behaviour - a second warning is given.
- On the third incidence, a circuit breaker is given to a student.

Loss of Good Standing

In order to maintain Good Standing, students' major behaviour entries will be monitored each fortnight by the Deputy Principal. Students who have repeated Circuit Breaker entries will have their Good Standing placed at risk. Intervention is actioned by the Deputy Principal to modify the negative behaviours and support the student in making positive choices.

Failure to change these behaviours will enact a further consequence which could include an out of school suspension or in school withdrawal. Staff can refer students to the Student Services team for support in changing their behaviour.

Student Support

Upon repeated negative interactions at school, a Tier 2 response will also be activated and the Student Services team will be notified. Referrals to the school psychologist, school nurse and school chaplain will be made in consultation with families. Further plans will be developed to support the student academically and socially, to alter their behaviour in a positive way. Students with additional needs will be supported through outside agencies including SEND:BE and referrals to Lead School Psychologist.

Immediate loss of Good Standing:

Loss of Good Standing is applied when a student has received a suspension from school.

Exceptions to this policy:

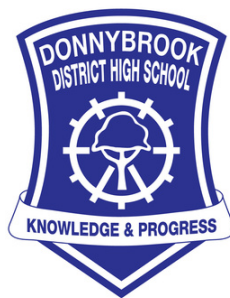

Permission to attend events is at the discretion of the Principal on a case-by-case basis. Attendance at the Adventure works excursions and camps will be at the discretion of the AdventureWorks Program Coordinator and the administration staff within the school. Attendance on camps and excursions is conditional on approval from these two bodies.
